

TINA JAIN

Space and interior designer | Business design

Delhi, India | tinajaindelhi2004@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFILE

Hi, I'm Tina Jain a space and interior design student currently in 4th year studying at The Design Village. I'm always curious about how spaces shape emotions, behaviours, and connection, and I love exploring new mediums, materials, and concepts.

I'm equally fascinated by the business side of design and how thoughtful decisions can influence brands, communities, and everyday lives. This curiosity inspires me of becoming an entrepreneur building practical solutions that help people fulfil their dream of having spaces that truly reflect who they are.

EDUCATION
